## **Additional Information**

The 920 Explorer MAX for daytrips, weekends and great on the water and excursions //

The 920 Explorer MAX has the same fore cabin and pilothouse design as its sister boat, the 790 Explorer, and can be fitted to provide all the comforts you need for overnight stays in a boat – including a soft top so you can make the most of sunny days //

The aft deck is much larger than competing boats, with more deck area than our largest day cruiser, the 850 Voyager. No other pilothouse boat can offer as much seating, spacious table and sun loungers on the aft deck as the 920 Explorer MAX // The aft deck is separated from the aft platform with a watertight door so you can drive astern into waves without your wake and waves washing over the aft deck. The aft platform is spacious and there is plenty of room to walk from port to starboard side. // The aft deck is unrivalled when it comes to size in this segment. The normal dimensions of an aft deck on pilothouse boats of this size is approx. 4 m<sup>2</sup>. The aft deck on the 920 Explorer MAX is 33% larger and measures a total 5.3 m<sup>2</sup>.// Aft of the aft deck is a spacious platform with plenty of room to walk from port to starboard side. Add to that the fantastic looks this is a real head turner....
