

2017 Quicksilver 755 Weekender £36,950 VAT Included

PROJECT BOAT. 2017 Quicksilver 755 Weekender. This is an excellent opportunity for a modern day Cruiser / Fisher project boat. This Quicksilver suffered from storm damage to the port side of the hull. There was impact damage caused by running around in fresh water. The boat was not submerged but did get some fresh water into the cabin. The hull has now been professionally repaired to a high level.

It still requires finishing internally and rubbing strake attaching, new trim tabs and all systems would require checking. The engine is a Mercury Verado 300HP outboard that is a runner. A good project at the fraction of the cost of a new one.

The boat must leave within 2 weeks of sale by collection only and no warranty given or implied. On site viewings are welcome and encouraged as you will need to see what works are required to finish it off. To make an appointment to view please contact Darren on 07717201688.
