

Narrow Boat 50FT

£12,950 VAT UK TAX paid

This 50ft narrowboat is offered as a full project and an excellent opportunity for someone looking to complete a fit-out to their own taste. The vessel was fully submerged and has since been recovered, leaving a solid blank canvas for a hands-on buyer.

Key Details

- 50ft narrowboat hull – ideal for a complete interior refit
- Beta Marine diesel engine – emergency repairs carried out; starts and runs
- Electrical system – will require attention and rewiring
- Cause of sinking – sink fitting pipe became disconnected
- Condition – sold strictly as a project; viewing strongly recommended

This is a great chance to take on a full restoration and create a personalised liveaboard or leisure craft. As with all project boats, inspection is encouraged so you can fully understand the scope of work required.

To make an appointment please call Darren 07717201688 or Email Darren@boats.co.uk
